Rohin Dharmakumar, Forbes.com

Now that the government has decided to assign a unique identity to each citizen in a bid to target social security services as well as assure internal security, the 1.16-billion population is waiting with bated breath. Issuing identities to all of them is a laudable, but a very long-term exercise. The day when the last Indian has been given the record will surely arrive, but we need a more modest goal post to start the project with.
